ABANDONED CITY INDUSTRY

LEFTOVER CONSTRUCTION PITS

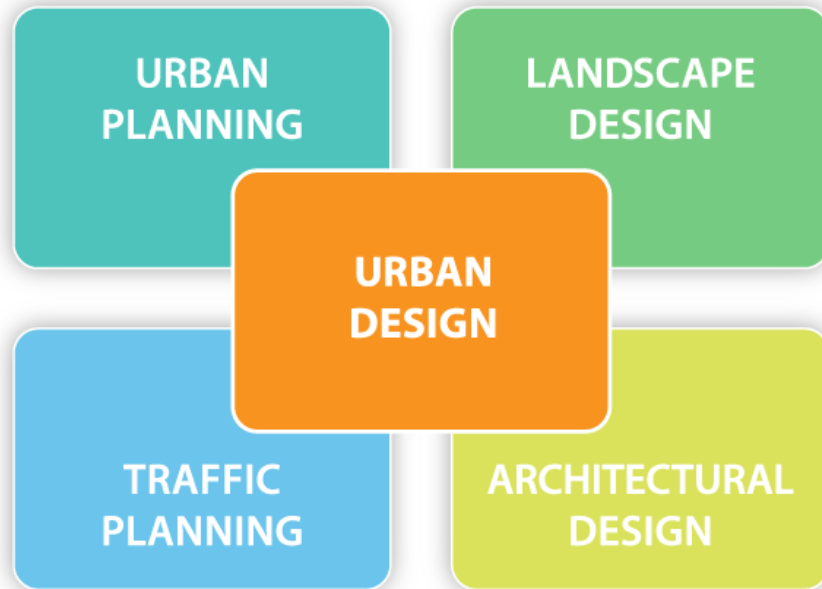

CAR DOMINATION

The City Vision 2007 converted to the master plan regulations directed the city development to:

- renewal and pedestrianization of the historic city center,
- compacting the city through brownfield re-development of degraded urban areas
- the concentration of urban development along the public transportation lines,
- protection of existing green infrastructure and landscape systems,
- concentration of suburbs and sprawled countryside.

URBAN DESIGN - INTEGRATING DISCIPLINE + MUTUAL BENEFITS

Enhances
economic
productivity +
living
affordability

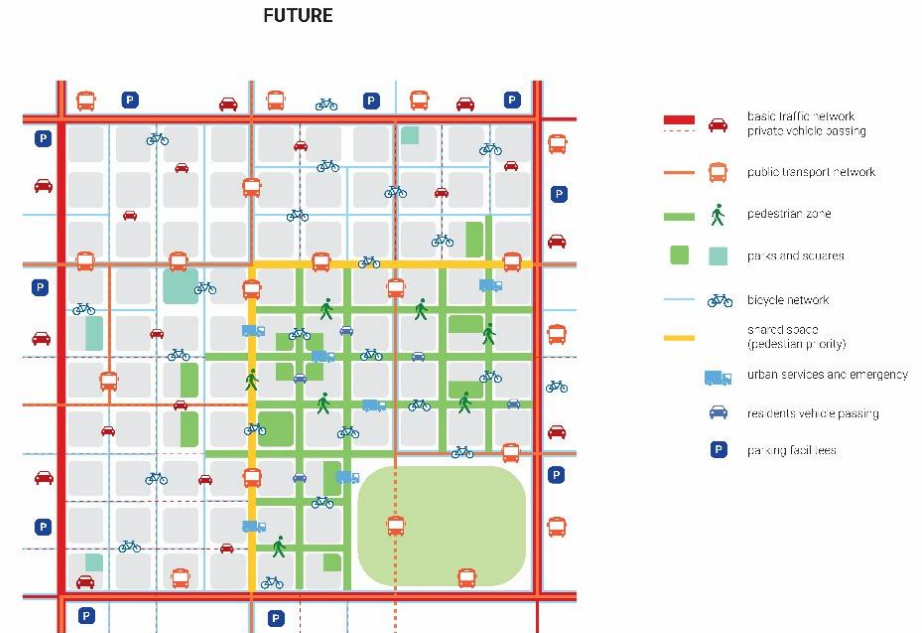

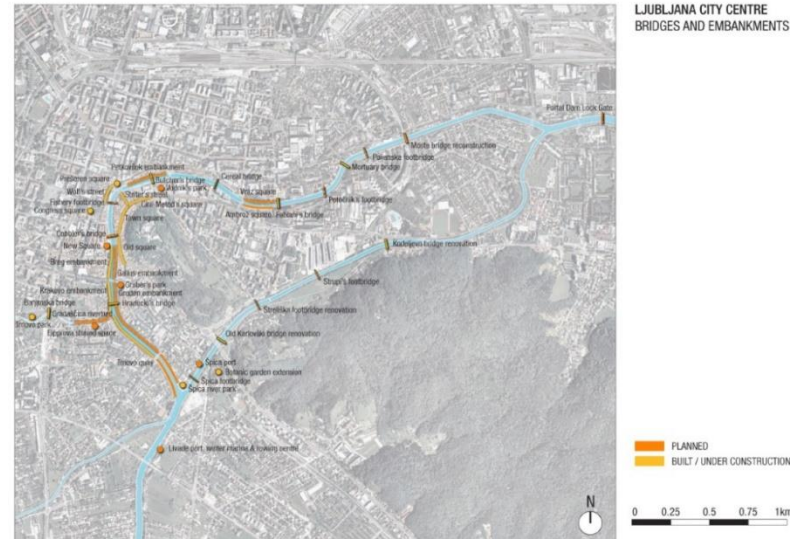

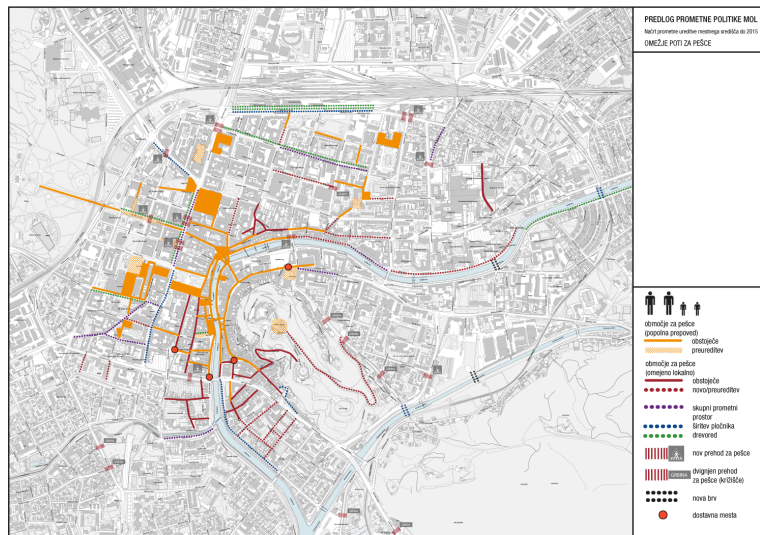

Fosters
environmental
responsibility

Demonstrates
leadership
+ integrates
design
excellence

Cultivates
healthy,
cohesive
+ inclusive
communities

PEDESTRIANISATION + PLACEMAKING = CATALYSTS FOR URBAN
RENEWAL
