Spontaneous street performances in the city centre

The City of Ljubljana welcomes all street artists and allows you to perform in public areas. We would like your performances to be pleasant, unobtrusive and undistruptive for the residents of the old town, and employees and visitors there, and therefore ask you to take into account the following:

1. the provisions of the **Decree on the special use of public areas*** that lays down the conditions for spontaneous street performances, and
2. **recommendations*** aimed at mutual respect, consideration of the diverse interests of all stakeholders and cooperation in their coordination.

* The decree and recommendations are published on the website www.ljubljana.si (in the section Public areas and the pulse of the city)

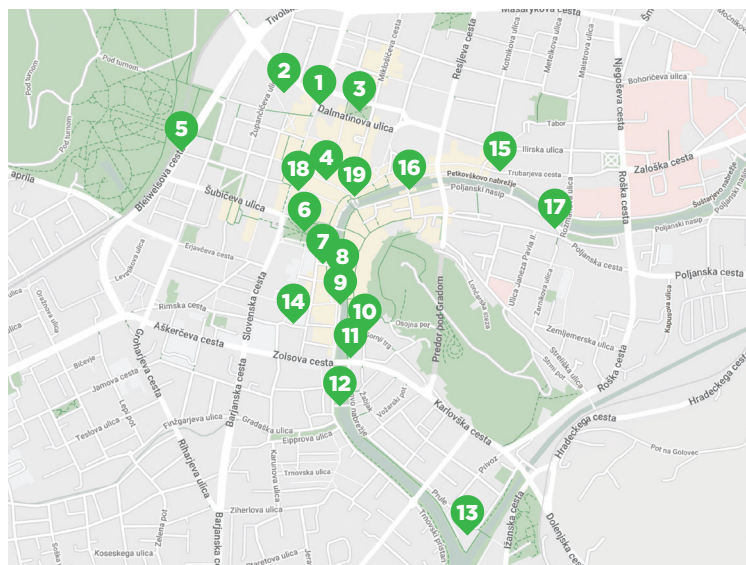

As public spaces are an open space for everyone, we would like to maintain tolerance, understanding and respect for the interests of all stakeholders. We therefore invite you to take into account the following recommendations when performing on the street:

- street artists may only perform at designated locations (specified in the Ordinance on the Special Use of Public Areas and presented in the attached folder);
- you may remain at a single location for a maximum of two hours, and must then give other street artists the opportunity to perform;
- you may only be present at an individual location once a day, as in this way you ensure a culture of changing locations and collegiality, and avoid the "appropriation" of an individual venue. At the same time, you are considerate of the surrounding residents and employees, and thus provide them with more diverse artistic content;
- do not significantly exceed the noise from the surroundings with your performance, as excessive noise and the use of sound amplifiers are not allowed, as this can cause inconvenience to residents, visitors and employees in the city centre;
- when a public event is taking place nearby, withdraw to another permitted location.
