

City of Ljubljana

URBforDAN Project

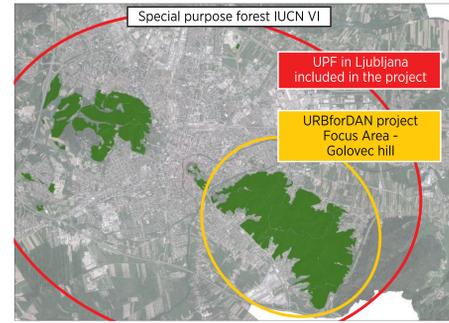

Management and Utilization of Urban Forests as Natural Heritage in Danube Cities

What is URBforDAN all about?

PARTNER CITY & COUNTRY	
1.	City of Ljubljana, Slovenia
2.	Municipality of Budapest, Hungary
3.	City of Cluj - Napoca, Romania
4.	City of Vienna, Austria
5.	City of Zagreb, Croatia
6.	City of Belgrade, Serbia
7.	City of Ivano Frankivsk, Ukraine

How is Ljubljana involved?

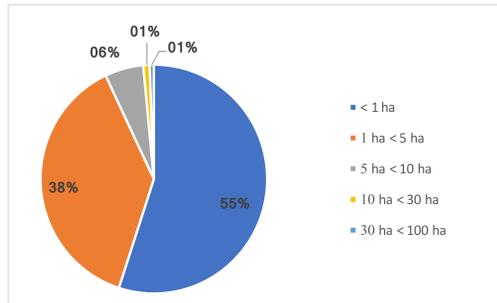

- Introduced Participatory Approach – inclusion of stakeholders in decision making and management processes
- Developed Integrated Multi-Use Urban and Peri-Urban Forests (UPF) Management Plan – focus on Golovec Hill
- Improved Operational Management and Conditions for UPF Users – e.g. installed new urban equipment, resolution of existing conflicts, new services, etc.
- Preserving and Promoting Natural Heritage in Danube Cities as Biodiversity “Hot-Spots” & “Stepping Stones”

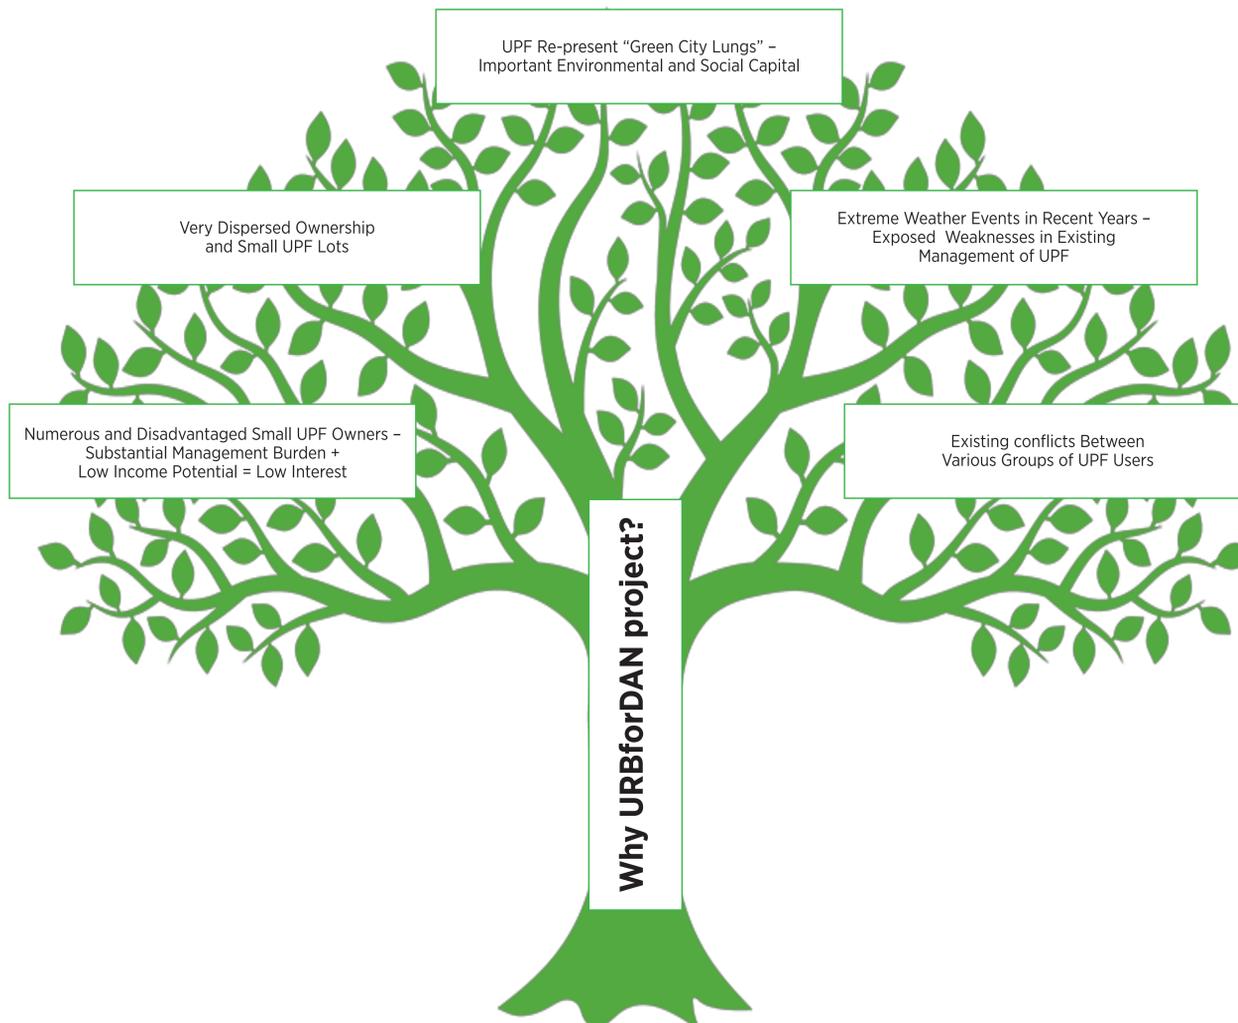

- Identification of New Sustainable Development Opportunities
- Established Initiative for Joint UPF management on Golovec Hill – pilot activity
- Developed Compensation Model for the Initiative – pilot activity
- The City of Ljubljana is URBforDAN Lead Partner, supported by Slovenia Forest Service (Project Partner) and external experts (ZaVita d.o.o.)
- Recognized opportunity to address all stated issues and ensure improved and coordinated UPF management
- Golovec Hill in Ljubljana as a pilot area (cca. 650 ha) – fragmented ownership

Forest functions		Total Share	
		ha	%
Ecological	Water protection	651	100
	Climate	651	100
	Cultural heritage	46	7
Social	Aesthetic	637	98
	Recreational	415	64
Production	Production	255	39

Infrastructure	km
Public roads	2,56
Forest roads	0
Skidding trails	78,98
Recreational paths	8,09
Other infrastructure in forests	28,34
